THE COAL STRIKE

is now entering on its third week with no immediate prospects of a settlement that will be beneficial to the consumer. There is now a moderate supply of coal in reserve and while it lasts if it could be distributed over a large number of users rather than a few, it would relieve that inflated demand that is sure to follow a lengthy strike, and also to tend to stabilize prices. We believe you will best serve your own interests by securing now at least twenty five per cent of your normal winter supply.

PAINS IN BACK?

Listen to What Mr. McCay Says About It.

Brooklyn, N. Y.—"For several years I had been subject to severe pains in my back, which often became so intense that I was compelled to cease work for days at a time. I could hardly walk. I feared I was about to lose my health or experience a general breakdown. I commenced taking Dr. Pierce's Ankle Tablets on Saturday night and in less than 24 hours all trace of pain had completely gone, and although ten weeks have now elapsed I have never felt the slightest return of the pain. I will be pleased to recommend Dr. Pierce's Ankle Tablets to any one whose condition may be similar."—Henry McCay, 100 Milton St. (Greenpoint).
